[#MobileDev](#) [#Founder](#)

## Personal Work

---

### My Motor Books

[www.MyMotorBooks.com](http://www.MyMotorBooks.com)

My MotorBooks is a full-featured stock-keeping and accountancy solution for people working in the Irish and U.K. motor trade. It allows users to manage their customers, stock, invoices, purchase orders, and accounts. I worked with motor-dealers to build the most relevant product.

### Dev C.V.

[www.DevCV.io](http://www.DevCV.io)

Dev CV is a soon to be released web app that allows users to create graphs describing their career experience. The client is a VueJS application and the backend is serverless, utilising Amazon's API Gateway, Cognito, and Lambda.

## Education

---
